General Price List

These prices are effective as of October 15, 2026, and are subject to change without notice.

The Federal Trade Commission (FTC) and the State of North Carolina require that certain disclosures be made by funeral providers on the general price list.

The goods and services shown below are those we can provide to our customers. You may choose only the items you desire. However, any funeral arrangements you select will include a charge for our basic services and overhead. If legal or other requirements mean you must buy any items you did not specifically ask for, we will explain the reason in writing on the statement we provide describing the funeral goods and services you selected.

State or local law does not require that you buy a container to surround the casket in the grave. However, many cemeteries require that you have such a container so that the grave will not sink in. Either a grave liner or a burial vault will satisfy these requirements.

Our funeral home makes no representations or warranties about the protective value of certain outer burial containers other than those made by the manufacturer. The only warranties, express or implied, granted in connection with the goods sold with this funeral service are the express written warranties extended by the manufacturer thereof. No other warranties of merchantability or fitness for a particular purpose are extended by the seller.

The models listed reflect the most commonly ordered selections. Additional models, including oversize, are available in our catalog. Custom selections may be available at an additional cost.

BASIC SERVICES of FUNERAL DIRECTOR, STAFF, and OVERHEAD ... $2,500

This fee for our basic services and overhead will be added to the total cost of the funeral arrangements you select. (This fee is already included in our charges for direct cremations, immediate burials, and forwarding or receiving of remains.)

The above paragraph contains verbiage mandated by the Federal Trade Commission. This fee is already included in our charges for the following packages: Cremation, Aquamation, Green Burial, Traditional Burial, Repatriation, Forwarding and Receiving of Remains.
The following is a brief explanation of our basic services fee:

- Endswell staff and transportation team available at all hours
- Guidance during the initial request of service

- Obtaining biographical data for the death certificate; obtaining certified copies of death certificates and releasing them to informant or informant's agent

TRANSPORTATION

The cost for transfer of remains to Endswell is already included in all of our packages. The cost for transfer of remains to the cemetery is included in our charge for green/natural burial and traditional/conventional burial, and the cost for transfer of remains to the crematory is included in our charge for direct cremation. Additionally, the cost for transfer of remains to RDU is included in our forwarding of remains and repatriation packages.

PREPARATION OF REMAINS

Endswell prepares bodies for viewing and services by undressing, cleaning, and/or shrouding the body. This service includes placement in an alternative container when required by law.

Standard Dressing / Care $200

Special Care $500
Required for viewing or service for organ donor or autopsy cases.

Embalming $1,000
Please note, Endswell does not require embalming to have a funeral with viewing.

Embalming is not required by law. Embalming may be necessary, however, if you select certain funeral arrangements, such as a funeral with viewing. If you do not want embalming, you usually have the right to choose an arrangement that does not require you to pay for it, such as direct cremation or immediate burial.

The above paragraph contains verbiage mandated by the Federal Trade Commission. As a general rule, Endswell does not require embalming to have a funeral with viewing. There are some situations that may prompt us to recommend embalming, such as a viewing being held two or more weeks after death, international repatriation of the deceased, or if restorative work is required due to significant damage to the body. However, the final decision on embalming rests with the next-of-kin or authorizing agent except in certain special cases.
